I. INTRODUCTION

PURPOSE

The Committee bill H.R. 1868, the Medicare and Medicaid Patient and Program Protection Act of 1985, would recodify certain provisions of law relating to medicare and medicaid fraud and abuse and extend them to the maternal and child health program and the title XX social services program. The bill would also add several new provisions. It would require a minimum exclusion of five years for individuals or entities convicted of a program-related crime. It would also mandate the exclusion of any individual or entity convicted of a crime related to patient neglect or abuse. In addition, it would authorize the Secretary to exclude from medicare, medicaid, the maternal and child health program and the title XX social services program any individual or entity convicted of certain crimes related to the provision of health services, to financial integrity, to the obstruction of certain investigations or to controlled substance violations and would authorize the exclusion from medicare, medicaid and the State health care programs in all States a person whose license had been revoked or suspended by any State licensing authority.

The purpose of the recodification is to organize, clarify and simplify current provisions related to offenses for fraud and abuse under medicare and medicaid. Further, the additional authority for the Secretary to exclude certain practitioners who have committed crimes or lost their licenses is intended to fill in gaps in the current ability of the Department of Health and Human Services to protect medicare, medicaid and other program beneficiaries from incompetent practitioners and receiving inappropriate care.

SHORT SUMMARY

H.R. 1868 would give the Secretary the authority to:

Exclude from medicare, and direct the States to exclude from medicaid, the maternal and child health programs under title V and the title XX social services programs any individual or entity convicted of a program-related crime for a minimum of five years;

Exclude from medicare and direct the States to exclude from the above State health care programs any individual or entity convicted of a criminal offense relating to neglect or abuse of patients;

Exclude from medicare and direct the States to exclude from the State health care programs any individual or entity convicted of certain offenses including fraud, financial abuse or unlawful manufacture or distribution of a controlled substance;

Exclude from medicare and direct the States to exclude from the State health care programs any individual or entity whose license to provide health care has been revoked, suspended or who has otherwise lost or surrendered such a license for reasons bearing on professional competence, professional conduct or financial integrity;

Exclude a health maintenance organization, approved under medicare or medicaid, which has failed substantially to provide medically necessary items or services as required by law or contract if such failure has or has the likelihood of adversely affecting beneficiaries under these programs;

Impose a civil monetary penalty on a person who submits a claim for a physician's service and such physician was not licensed, had obtained a license through a misrepresentation of a material fact or who claimed to be board certified and was not; in addition, such person would be subject to a criminal penalty;

In addition, H.R. 1868:

Would amend the Controlled Substance Act to permit the Attorney General to deny, revoke, or suspend the registration to manufacture, distribute or dispense a controlled substance for any individual or entity excluded from the medicare program for acts requiring mandatory exclusions;

Require each State to report to the Secretary the following information relating to formal proceedings concluded against a health care practitioner by a State licensing authority; (1) any adverse actions taken; (2) any dismissal or closure of such proceeding because the license was surrendered or the individual or entity left the State; or (3) any other loss of license.

BACKGROUND AND NEED FOR LEGISLATION

Under current law, the Department of Health and Human Services (HHS) can exclude practitioners from participation in medicare for a number of reasons:

Conviction of a criminal act against medicare (title XVIII), medicaid (title XIX) or title XX of the Social Security Act;

Imposition of a civil monetary penalty for acts against medicare or medicaid;

Submitting false claims to medicare;

Repeatedly providing more services than necessary to medicare beneficiaries;

Submitting medicare claims with changes that substantially exceed the practitioner's customary charges;

Providing services to medicare beneficiaries that are of a quality which fails to meet professionally recognized standards of care;

Failing to keep adequate records to demonstrate the need for services rendered.

HHS has the authority to require all States to exclude practitioners from participating in medicaid only when the practitioner is convicted of a criminal act against medicare, medicaid or title XX, or where HHS has imposed a civil monetary penalty on the practitioner for acts against medicare or medicaid.

If HHS excludes a practitioner for the above reasons, HHS is required to notify the State and local agencies responsible for health care licensing or certification of the suspension, and request that they invoke sanctions in accordance with applicable State law or policy.

In the last quarter of fiscal year 1983, Secretary Heckler transferred to the Inspector General's (IG) Office from the Health Care Financing Administration (HCFA) the authority to suspend or terminate from medicare and medicaid all health care providers who engage in fraudulent or abusive practices. During the same period, the Civil Monetary Penalty Law (CMPL), providing tough monetary sanctions, was formally implemented by the Department, further enpowering the IG take action against health providers who abuse or defraud these programs.

On May 1, 1984, the U.S. General Accounting Office (GAO) issued a report to the Secretary of HHS which concluded that there was a need to expand Federal authority to protect medicare and medicaid patients from health practitioners who lose their licenses. The GAO report found that medicare and medicaid patients are being treated in some States by health care practitioners whose licenses were revoked or suspended by another State's licensing board because they did not meet minimum professional standards. This occurred because practitioners can move to another State where they have a license and continue to practice. Such practitioners are able to treat medicare and medicaid patients because HHS does not have the authority to exclude them from these programs in all States based on licensing board findings and sanctions in one State. Currently, HHS is only empowered to exclude the practitioner in the State in which he or she has lost a license.

Licensing of health care professionals is a responsibility of the States, and practitioners can hold licenses in more than one State. HHS administers medicare and medicaid at the Federal level. To participate in these programs, a practitioner must hold a valid State license. When a State licensing board revokes or suspends a practitioner's license, he or she can no longer legally provide services in that State, and the State licensing boards makes medicare and medicaid aware of this fact, However, sanctioning action by one State does not automatically result in sanctioning by other States where the practitioner holds licenses.

A primary reason sanctioned practitioners were able to move to other States and continue practice was that other States did not learn of the practitioner's previous offenses, or when they did, many months or years had passed. When States are informed, it takes up to three years to sanction practitioners because procedures are lengthy and there is a shortage of personnel. In addition, State licensing laws may preclude a State from taking action based solely on another State's sanction. Further, physicians whose licenses have been revoked can enter the armed services and practice without a license from the State in which they are located.

Under current law, HHS can exclude practitioners only for acts committed against medicare, medicaid and their beneficiaries. As a result, HHS excludes relatively few of those sanctioned by State boards. For example, while State licensing boards in Michigan, Ohio and Pennsylvanai sanctioned 328 practitioners between 1977 and 1982, HHS nationwide excluded only 335 practitioners from 1975 to 1982. Also, only 15 of the 328 practitioners sanctioned by the three States were also excluded by HHS.

Further, over seventy percent (70%) of HHS exclusion actions were for criminal violations against the programs. However, fifty-eight percent (58%) of the 328 licensing board sanctions in the three States were for problems that affected the practitioners' ability to meet minimum professional standards to provide quality care.

In addition, HHS is unable to bar individuals or entities from participation that have been convicted of defrauding private health insurers or defrauding other Federal, State or local government programs.

In summary, HHS currently does not have the authority to exclude individuals or entities from medicare, medicaid, the maternal and child health program and title XX social services program who have been convicted of non-program related crimes

such as fraud, financial abuse, neglect of patients or unlawful distribution of a controlled substance. It does not have the authority in all cases to exclude those who have been sanctioned for defrauding or abusing the medicaid program from participation in medicare or vice versa. Further, HHS does not have the authority to exclude nationwide those individuals or entities that have lost their licenses to provide health care or have otherwise been sanctioned by a State licensing authority.

II. Explanation and Justification

SECTION 2. EXCLUSION FROM MEDICARE AND STATE HEALTH CARE PROGRAMS

Mandatory exclusion for program-related crimes (section 1128(a)(1) of the Social Security Act)

The Secretary would be required to exclude from participation in medicare and to direct the States to exclude from medicaid, the maternal and child health program and the title XX social services program, any individual or entity convicted of a criminal offense related to their participation in these programs. The exclusion would be for a period of not less than five years.

If the Secretary excludes an individual or entity from medicare under this provision, the State would be required to exclude such individual or entity from participation in medicaid, the maternal and child health program under title V, and the title XX social services program for a similar period. (Hereafter, medicaid, the maternal and child health program, and the title XX social services programs are referred to as the State health care programs.)

If an individual or entity convicted of a program-related offense involving a State health care program has not been furnishing services to medicare beneficiaries but would be eligible to do so, it is the Committee's expectation that the Secretary would proceed to exclude the individual or entity from medicare and then direct the States to exclude the party from the State health care programs.

If the individual or entity is a type of provider that would not otherwise be eligible for medicare payment, the Secretary could call these matters to the attention of the States and urge that they institute exclusion proceedings. In the alternative, the Secretary could follow the exclusion procedure for medicare and direct the States to exclude the provider from the State health care programs.

While there is currently a mandatory exclusion from medicare and medicaid for crimes related to medicare, medicaid or title XX, there is no minimum period of exclusion specified in the law. This provision would amend current law to require a minimum exclusion of five years for such crimes. The Committee believes that such a minimum exclusion is appropriate given the seriousness of the offenses. The minimum exclusion of five years provides the Secretary with adequate opportunity to determine whether there is a reasonable assurance that the types of offenses for which the individual or entity was excluded have not and will not recur. Moreover, a mandatory five-year exclusion should provide a clear and strong deterrent against the commission of criminal acts.

This provision would also extend current law to require mandatory exclusion from the maternal and child health and title XX

Social Services programs of individual or entities convicted of program-related crimes.

Mandatory exclusion for crimes related to patient neglect or abuse (section 1128(a)(2) of the Social Security Act)

The Secretary would be required to exclude from participation in medicare any individual or entity that has been convicted of a criminal offense relating to neglect or abuse of patients in connection with the delivery of health care.

If the Secretary excludes any individual or entity under this provision, the State would be required to exclude such individual or entity from participation in State health care programs for the same period.

As noted above, the Secretary could exclude from medicare providers who are eligible to but do not participate. In addition, she could direct States to exlude providers who are not otherwise eligible to participate in medicare.

Under current law, the Secretary does not have the authority to exclude persons who have been convicted of criminal offenses that are not related to medicare or other State health care programs. This provision would give the Secretary the authority to protect medicare and the State health care program beneficiaries from individuals or entities that have already been tried and convicted of offenses which the Secretary concludes entailed or resulted in neglect or abuse of other patients and whose continued participation in medicare and the State health care programs would, therefore, constitute a risk to the health and safety of patients in those programs.

The Committee believes that such exclusion should be mandatory based on the potential for serious harm to program beneficiaries presented by such individuals or entities. While the Committee has not made this provision subject to the mandatory five-year minimum exclusion period, the Committee expects that exclusions imposed under this provision will be for a period of five years or more, except in instances where mitigating factors justify a lesser period.

Permissive exclusions

Subsections 1128(b)(1) through (13) would establish discretionary authority for the Secretary to exclude individuals and entities from medicare for specified reasons. Although the Secretary would have discretion as to whether to initiate an exclusion proceeding in any particular case, the bill makes it clear that, if the Secretary concluded that an exclusion was warranted, these authorities would have to be exercised in a manner that resulted in the exclusion of the individual or entity from all of the medicare and State health care program for which the individual or entity was otherwise eligible to participate.

If the provider is eligible to participate in medicare, the Secretary would exclude the provider from medicare (even if such provider was not participating in medicare) and would simultaneously direct the States to exclude the provider from the State health care programs for a similar period of time. If the provider is not eligible to participate in medicare because such provider is the type of pro-

vider that is not reimbursed under that program, the Secretary could use the medicare exclusion procedures to direct the States to exclude the provider from the State health care programs for the period of time for which such provider would have been excluded from medicare.

Authority to exclude for conviction relating to fraud (section 1128(b)(1) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity convicted of a criminal offense relating to fraud, theft, embezzlement, breach of fiduciary responsibility or financial abuse in connection with the delivery of health care or with respect to a program that is financed, at least partially, by any Federal, State or local government.

Under current law, the Secretary does not have the authority to exclude individuals or entities convicted of criminal offenses that are not related to the medicare or the State health care programs. This provision would permit the Secretary to exclude such persons and entities who have already been tried and convicted of offenses relating to their financial integrity, if the offenses occurred in delivering health care to other patients or if they occurred during participation in any other governmental programs.

Authority to exclude for conviction relating to obstruction of an investigation (section 1128(b)(2) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity convicted of interference or obstruction of any investigation into any criminal offense for crimes that would require mandatory exclusion under section 1128(a) or permit exclusion under section 1128(b)(1).

Authority to exclude for conviction relating to controlled substance (section 1128(b)(3) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity convicted of unlawful manufacture, distribution, or dispensing of a controlled substance or any other criminal offense relating to a controlled substance.

Authority to exclude for license revocation or suspension (section 1128(b)(4) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity whose license to provide health care has been suspended or revoked by a State licensing authority or whose license has otherwise been lost for reasons bearing on the individual's professional competence, professional conduct or financial integrity.

The Committee heard substantial testimony from the General Accounting Office, based on its investigation in three States, and from the Inspector General of HHS about the need to protect medicare and medicaid beneficiaries from practitioners who lose their license in one State, move to another State and continue to treat beneficiaries. This provision would permit the Secretary to exclude such persons from medicare in all States and to require the States to exclude them from participation in any State health care program.

This provision would also permit the exclusion of individuals or entities who surrender their licenses while disciplinary proceedings involving professional competence, professional conduct or financial integrity are pending. This provision will prevent unfit practitioners from avoiding exclusion through the expedient surrendering their license before the State can conclude proceedings against them.

Authority to exclude for exclusion from Federal health care programs (section 1128(b)(5) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity suspended or excluded from any Federal program involving the provision of health care. Programs included would be those administered by the Department of Defense or the Veterans Administration, as well as medicaid and the other State health care programs.

This provision is designed to correct the current anomaly whereby individuals or entities who have been found unfit to participate in one Federal health program or Federally-funded State health care program may continue to participate in medicare and the State health care programs. The Committee beleives that once such an individual or entity is found to be unfit to participate in one such program, they should be banned from participation in medicare and the State health care programs as well.

Authority to exclude for excessive charges, unnecessary services, or failure of certain organizations to furnish medically necessary services (section 1128(b)(6) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity the Secretary determines:

(1) submitted requests for payment which contain charges (or costs) substantially in excess of customary charges (or costs);

(2) furnished items or services substantially in excess of the patient's needs or a quality that fails to meet professionaly recognized standards of health care; or

(3) is a health maintenance organization, approved under medicare or medicaid, which has failed substantially to provide medically necessary items or services as required by law or contract if the failure has adversely affected or has the likelihood of adversely affecting medicare or medicaid beneficiaries.

The first two items of this provision essentially recodify current law under section 1862(d) which requires denial of medicare payment to persons committing any of these acts. The provision expands current law to include the State health care programs. Further, the provision would make it clear that where excess services were furnished or where there was a failure to provide quality care the Secretary could examine the provider's health care practices in furnishing services to patients who are not program beneficiaries.

The new provisions affecting health maintenance organizations (HMOs) and competitive medical plans (CMPs) are intended to deal with serious failures to abide by acceptable standards of medical practice, rather than isolated cases of inadvertant omissions. The Committee intends for the Secretary to examine whether there was a deliberate omission or a pattern of failing to provide necessary

items and services, the seriousness of the effect on or risk to patients, and the reasons or circumstances involved. It is also expected that the practice standards used to determine that items or services were medically necessary would be based on generally accepted HMO practice standards. The Committee expects that these standards could be developed by physicians involved with prepaid group practices, other HMOs and CMPs, or standards used by State agencies that have contracts with HMOs.

Authority to exclude fraud, kickbacks, and other prohibited activities (section 1128(b)(7) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity which has committed an act subject to criminal penalty under the new section 1128B relating to kickbacks and bribes.

Under current law, a person may be subject to imprisonment or fine under section 1909 or 1877 if they have committed certain acts relating to kickbacks, bribes or false statements. This provision recodifies these provisions and permits sanctions and exclusions not only for medicare but also for the other State health care programs.

Authority to exclude entities controlled by a sanctioned individual (section 1128(b)(8) of the Social Security Act)

The Secretary would be authorized to exclude any entity that has a person with an ownership or controlling interest, or who has an officer, director, agent or managing employee that has been convicted or certain program-related offenses (described in section 1128(a) or section 1128(b) (1) (2) or (3)), or against whom a civil monetary penalty has been assessed, or who has been excluded from participation in medicare or a State health care program.

This section recodifies section 1128(b) of current law with respect to excluded entities from medicare which have a close relationship to individuals who have been excluded or sanctioned by the program on the basis of a program-related conviction. It also recodifies section 1128(c) of current law with respect to the exclusion of entities that have a person against whom a civil monetary penalty has been assessed. This provision expands the exclusion authority to include entities which have a close relationship with individuals who have been excluded from medicare or the other State health care programs.

Authority to exclude for failure to make certain disclosures (section 1128(b) (9), (10), and (11) of the Social Security Act)

The Secretary would be authorized to exclude any individual or entity which fails fully and accurately to make any disclosure required regarding persons with ownership or control, or persons convicted of program-related crimes, or which fails to supply the Secretary as requested information pertaining to the ownership of a subcontractor or to significant business transactions. In addition, the Secretary would be permitted to exclude any individual or entity that fails to provide information that the Secretary determines is necessary to determine amounts payable or refuses to

permit examiniation of its fiscal or other records as may be necessary to verify such information.

These provisions are essentially a recodification of current law under section 1866(b) (2)(C) and (6), with an expansion in the entities covered and an extension to include exclusions from the State health care programs.

Authority to exclude for failure to grant immediate access (section 1128(b)(12) of the Social Security Act)

The Secretary would be authorized to exclude an individual or entity that fails to grant, upon reasonable request, immediate access to the Secretary, State agent, Inspector General, or a State medicaid fraud control unit for the purpose of performing their statutory functions. The Secretary would be required to define by regulation what constitutes immediate access and reasonable request. The period of exclusion would be equal to the period during which access was denied and an additional period not to exceed 90 days as set by the Secretary.

Authority to exclude for failure to take corrective action (section 1128(b)(13) of the Social Security Act)

The Secretary would be authorized to exclude any hospital which fails to comply substantially with a corrective action necessary to prevent or correct inappropriate admissions or practice patterns under the prospective payment system if required to do so under the provisions of section 1886(f)(2) pertaining to the review and recommendations of a peer review organization. This provision clarifies the sanctions available under current law and extends them to include exclusions from the State health care programs.

Due process (section 1128(c)–(g) of the Social Security Act)

All mandatory and permissible exclusions under section 1128 and 1128A would be effective at such time and upon such reasonable notice to the public and to the individual or entity as may be specified in regulation. An exclusion would be effective on or after the effective date specified by the notice of exclusion.

In order to avoid disruptions in care that would be harmful to patients and to permit an orderly transfer to another provider, payment to an excluded provider would be permitted under medicare, medicaid, and a State health care program for up to 30 days for inpatient institutional services furnished to an individual admitted prior to the exclusion, and for home health services or hospice care furnished pursuant to a plan established before the date of the exclusion. The Secretary could stop payments for such patients sooner than 30 days after exclusion if the Secretary concluded that the risk to the health and safety of the patients was sufficiently serious to warrant a more immediate transfer to a different provider.

Under the bill, the notice of the exclusion under section 1128 or 1128A would be required to state the earliest date on which the individual or entity could be reinstated in medicare, medicaid and the other State health care programs. The period could not be less than five years for an exclusion under the program-related crimes provision in section 1128(a)(1).

The individual or entity excluded under section 1128 would be entitled to reasonable notice and opportunity for a hearing by the Secretary after the notice of exclusion and to judicial review of the Secretary's final decision. These are the same hearing and notice requirements provided under present law in sections 1862(d), 1128 and 1156.

There are currently several different procedural regulations governing the various provisions available to the Secretary to sanction individuals and entities. Although similar in many respects, the regulations vary sufficiently that affected parties can become confused about the correct, applicable procedures. Hence, the Committee bill consolidates these authorities, and the Committee understands that this administration will be consolidated under the responsibility of the Inspector General. The Committee intends that the Secretary will promulgate a uniform set of procedural.

The provisions of section 205(h) of the Social Security Act have been expressly incorporated in the bill to make clear that the review process provided for in the bill shall be the exclusive means of review for questions arising under this section (and under sections 1128A and 1156).

The Secretary would be required to notify promptly the appropriate State agencies of the exclusion from medicare under section 1128. Each State would be required to provide for exclusion from its State health care programs for the same period as the medicare exclusion under the section 1128 or 1128A, unless the State requested and received a waiver from the Secretary, based on a judgment that the exclusion will result in program beneficiaries not having adequate access to appropriate services.

This is essentially a restatement of current law with respect to notice. With respect to required State sanctions, the bill restates current law under section 1128(a) requiring States to exclude individuals and entities convicted of a program-related crime. With respect to section 1128A civil monetary penalties, States would be required to exclude the individual or entity, rather than the Secretary being permitted to decide whether to direct the States to exclude such individual or entity. For all other current and new offenses, the State would be required to exclude from State health care programs for the same period as the medicare exclusion. In addition, as under current medicare law, the Secretary would be permitted to waive the exclusion from the State health care program upon the request of the State.

An individual or entity excluded from participation under section 1128 or the section 1128A civil monetary penalty provisions woud be permitted to apply to the Secretary for reinstatement under medicare, and the State health care programs. The Secretary could reinstate such individual or entity if the Secretary determined that there was no basis for a continuation of the exclusion. The Secretary would consider the conduct of the applicant which occured after the date of the notice of the exclusion or which was unknown to the Secretary at the time of the exclusion. The Secretary would have to be satisfied that there were reasonable assurances that the actions which were the basis for the original exclusion have not recurred or would not recur.

This provision also amends current law to provide for administrative and judicial review of a denial of an application for reinstatement. The Committee believes that such review is appropriate in order to provide excluded individuals and entities a safeguard against the possibility of arbitrary denials of reinstatement.

The Committee intends that the Secretary will exercise due diligence in exercising the exclusionary authority within generally accepted procedural safeguards. As such, the Committee intends that the decision of the Secretary should be accorded deference in the judicial review process. The Committee also intends for the Secretary to set forth in regulations the frequency with which applications for reinstatement can be made in order to prevent unduly repetitious submission of such applications.

SECTION 3. CIVIL MONETARY PENALTIES (SECTION 1128A OF THE SOCIAL SECURITY ACT)

Under current law, the Secretary is authorized to impose a civil monetary penalty (of up $2,000 per item or service), plus as assessment of twice the amount claimed, on any person who files a claim for a medical or other item or service that the person knew or had reason to know was not provided as claimed. The Secretary is also authorized to exclude a person, against whom a civil money penalty or assessment has been imposed, from medicare and to direct his exclusion from medicaid as currently provided in section 1128(c). The Committee bill consolidates and clarifies these authorities, along with some expansion of the grounds for penalties and exclusion.

The bill makes several clarifying amendments to the civil monetary penalty statute. First, the bill amends the statute to make actionable those claims a person knew or had reason to know were "false or fraudulent." This provision is intended to clarify that the scope of the statute includes such conduct as double billing, but is not intended to change the current standard of proof regarding the requirement that a person knew or had reason to know the claim was wrongful.

The bill further clarifies the statute by expressly providing that the submission of claims for physician's services or items or services incident to a physician's service which are furnished or supervised by a non-licensed physician are actionable under the statute. In addition, the bill expands the statute's coverage to encompass claims for such items or services where the physician's license was obtained through material misrepresentations or where the physician falsely represented to the patient that he or she was board-certified in a medical specialty.

The Committee notes a clarification of intent with respect to the definition of "item of service" in section 1128A(h)(3) of the current statute. Since the enactment of the civil monetary penalty statute, the Congress has enacted the prospective payment system (PPS) for inpatient hospital services furnished under medicare (section 1886 of the Social Security Act). Consequently, hospitals now bill medicare for a hospital inpatient stay and receive a payment that encompasses all the hospital inpatient services furnished during that stay. This change in the mechanism and documentation by which

hospitals make claims for services under PPS does not affect their status as claims for items or services within the meaning of section 1128A. Other examples of information that hospitals provide under PPS that may constitute a claim include diagnostic and procedural information, cost reports, reports on the numbers and time allocation of interns and residents, and length of stay information.

Under the bill, the Secretary's authority to exclude a person against whom a civil monetary penalty or assessment is imposed would be relocated from section 1128 to section 1128A. The intent of this change is to make explicit the policy that the Secretary may use a single administrative procedure both for imposition of penalties and assessments and for exclusions.

The Committee's bill, in the new section 1128(6)(7), would also authorize the Secretary to exclude an individual or entity who commits an act that would be a basis for a civil monetary penalty under section 1128A. Thus, the Committee bill would give the Secretary two alternative procedures for exclusion. The Secretary could use section 1128, which does not involve civil money penalties and for which the opportunity for hearing follows the notice of exclusion, or could use section 1128A, which combines actions for exclusion and civil money penalties and which offers an opportunity for hearing prior to the exclusion and penalty. It is the Committee's intent, however, that the Secretary choose one or the other alternative in each instance and that the Secretary not subject an individual or entity to both procedures on the same set of facts.

By consolidating the exclusion and penalty provisions in section 1128A, the bill would also provide a single forum for judicial review of such penalties, assessments and exclusions. Under current law, civil monetary penalties and assessments are subject to review by the Courts of Appeal; whereas, exclusions based on them under section 1128 are subject to review under Section 205(g) in the district courts.

In the case of claims filed before August 13, 1981 (the effective date of the civil monetary penalty law), the bill provides that no civil monetary penalty or assessment can be imposed in excess of what could have been imposed under the False Claims Act (31 U.S.C. 3729) for the same conduct. The intent of this provision is to clarify the standards applicable in proceedings under this statute involving such claims.

Under the bill, the Secretary would not be permitted to initiate an action under the civil monetary provisions later than six years after a claim had been presented. This is the same period provided in the False Claims Act (31 U.S.C. 3731). In addition, the section clarifies that actions may be initiated either by mailing notices by registered or certified mail, or by delivery to Respondent.

A State's share of funds collected under the civil monetary penalty statute in cases involving medicaid claims would be increased under the bill. Under current law, the State recovers only its share of the medicaid funds actually paid as a result of false claims. Under the bill, the State would be paid a portion of the total amount collected under the civil monetary penalty statute, in proportion to its share of the amount it paid for the claims on which the amount collected is based. The intent of this provision is to encourage States to develop and refer civil monetary penalty cases to

the Secretary, and to recompense them for their investigative and support services in civil monetary penalty cases.

The bill would authorize the Secretary to issue and enforce subpoenas with respect to civil monetary penalty proceedings to the same extend the Secretary has such authority in other medicare and medicaid matters.

If the Secretary has evidence that any person has engaged, is engaging or is about to engage in any activity which makes the person subject to a civil monetary penalty, the Secretary would be permitted to bring an action in district court to enjoin such activity or to enjoin such persons from concealing, removing or encumbering assets which may be required in order to pay a civil monetary penalty, or to seek other appropriate relief, including receivership. This provision is modeled on the injunctive authorities of other government agencies with anti-fraud responsibilities, namely, the Securities and Exchange Commission (*See* 15 U.S.C. 77t) and the Federal Trade Commission (*See* 15 U.S.C. 53(b)). It is intended that district courts will grant the Secretary appropriate relief based on evidentiary showings which are no more burdensome than evidentiary showings required of those agencies.

SECTION 4. CRIMINAL PENALTIES FOR CERTAIN FRAUD AND ABUSE RELATED TO MEDICARE AND MEDICAID (SECTION 1128B OF THE SOCIAL SECURITY ACT)

The bill would relocate the kickback, bribe, and false statements provisions of medicare (currently section 1877) and medicaid (currently section 1909) into a new section 1128B. The scope of these offenses would be broadened to encompass the maternal and child health program and the Title XX social services program. This bill also would provide criminal penalties for persons presenting claims for physician's services when the person was not a licensed physician or got the license through a misrepresentation.

SECTION 5. INFORMATION CONCERNING SANCTIONS TAKEN BY STATE LICENSING AUTHORITIES AGAINST HEALTH CARE PRACTITIONERS (SECTIONS 1902(a)47) AND 1919(c) OF THE SOCIAL SECURITY ACT)

A State would be required to have in effect a system of reporting informatioin with respect to formal proceedings concluded against an individual or entity by the State licensing authority.

The State would be required to maintain a reporting system on any adverse actions taken by such licensing authority, including any revocation or suspension of a license, reprimand, reason of the practitioner or entity surrending the license or leaving the State, also any other loss of license whether by operation of law, voluntary surrender, or otherwise.

The State would be required to provide the Secretary, or an entity designated by the Secretary, access to such information for the purpose of carrying out this Act. The information must be supplied to the Secretary or, under other suitable arrangements by the Secretary, to another entity in such a manner as determined by the Secretary. Information would be required to be provided to State licensing authorities and to other State health care programs as well.

The Committee believes that there are other organizations which are currently collecting information on revocation, suspension, censure, and other licensure action against health care professionals which the Secretary might determine could adequately perform collection functions on behalf of the medicare and medicaid programs. The Secretary may find that it is not necessary to duplicate these collection processes. Therefore, the bill would leave to the Secretary the discretion to determine who might appropriately collect the information. If the Secretary decides to use another organization for the collection and dissemination of information, it is incumbent upon the Secretary to ensure that any organization chosen can provide the information in a timely manner and in such a way as to be useful to the Secretary.

Further, the Committee believes that it would be an excessive burden for the Secretary to collect information on all actions commenced or still pending only for the collection of completed actions.

The Committee anticipates that the Secretary and the Inspector General of the Department of Health and Human Services may wish to utilize peer review organizations to review the actions of State boards in determining whether the loss of license involved professional competence, professional conduct or financial integrity.

The Secretary would be required to provide suitable safeguards to ensure the confidentiality of the information furnished by State licensing authorities.

SECTION 6. OBLIGATIONS OF HEALTH PRACTITIONERS AND PROVIDERS (SECTION 1156 OF THE SOCIAL SECURITY ACT)

The bill would amend section 1156 of the Social Security Act which currently sets forth the obligations of physicians and other practitioners treating medicare patients to provide quality of care which is medically necessary and appropriately documented, and provides for the exclusion from medicare of providers who, upon review and recommendation of a utilization and quality control peer review organization, are found to have violated those obligations. The provision would extend those obligations to encompass all health care services for which the payment may be made under the Social Security Act, not just medicare. Further, the exclusion authority would extend to encompass violations occurring in, and exclusions from, any health care program for which payment may be made under the Social Security Act.

SECTION 7. EXCLUSION UNDER THE MEDICAID PROGRAM

The provision would give the States the express authority to exclude or otherwise bar individuals or entities from participation in State title XIX programs for any of the reasons that constitute a basis for an exclusion from title XVIII under Sections 1128, 1128A or 1866(b)(2). This provision is not intended to preclude a State from establishing any other bases for excluding individuals or entities from its title XIX program by State law.

SECTION 8. MISCELLANEOUS AND CONFORMING AMENDMENTS

Denial, revocation or suspension of registration to manufacture, distribute or dispense a controlled substance

The bill would amend the Controlled Substance Act to add as a basis for the denial, revocation or suspension of registration to manfacture, distribute or dispense a controlled substance by the Attorney General, any individual or entity that has been excluded, (or directed to be excluded) from participation in a program pursuant to section 1128(a).

The bill would amend titles V (maternal and child program), XIX (medicaid) and XX (social services program) to clarify that no payment could be made for any item or service furnished by an individual or entity excluded from participation in those programs.

The bill would also amend title XVIII (medicare) to provide that an institution or agency would not be entitled to separate notice and an opportunity for a hearing under both section 1128 and section 1866(b)(2) (termination of provider agreements) with respect to a determination or determinations based on the same underlying facts and issues.

In addition, it makes other technical and conforming amendments to the Social Security Act.

SECTION 9. CLARIFICATION OF MEDICAID MORATORIUM PROVISIONS

Section 9 of the bill would clarify the medicaid moratorium provision in section 2373(c) of the Deficit Reduction Act of 1984 (P.L. 98–369).

Effective dates

In general, the amendments would be effective at the end of the 14-day period beginning on the date of enactment. While the Secretary's new exclusionary authority becomes effective 14 days after enactment, the convictions which can now serve as a ground for exclusion could have occurred prior to the enactment of this bill. In addition, some grounds for exclusion are already contained in current law and these would not be affected by the bill with respect to claims filed prior to enactment.

The provision which would require a minimum exclusion of five years would not apply to exclusions based on convictions occurring before the date of the enactment of this Act.

The effective date for changes in the medicaid law would be for calendar quarters beginning more than 30 days after enactment. In the case of a State plan which the Secretary determines would require State legislation in order to meet the additional requirements herein imposed, the State plan would not be regarded as failing to comply with requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of enactment of this Act.

The subpoena and injunctive provision would be effective on the date of enactment.

The provision involving physician misrepresentations would only apply to claims filed after the effective date of this legislation. However, some physician misrepresentations are already subject to sanctions under current law and these would not be affected by the bill with respect to claims filed prior to enactment.

III. Budget Effects of the Bill

1. COMMITTEE ESTIMATE

In compliance with clause 7(a) of Rules XIII of the Rules of the House of Representatives, the following statement is made: The Committee agrees with the cost estimate prepared by the Congressional Budget Office which is included below. This estimate indicates that there will be no costs associated with this bill.

2. STATEMENT REGARDING NEW BUDGET AUTHORITY AND TAX EXPENDITURES

With respect to clause 2(l)(3)(B) of Rule XI of the Rules of the House of Representatives, the Committee advises that the Congressional Budget Office cost estimate included below indicates that there is no new budget authority or new or increased tax expenditures as a result of this bill.

3. COST ESTIMATE PREPARED BY THE CONGRESSIONAL BUDGET OFFICE

In compliance with clause 2(l)(3)(C) of Rule XI of the Rules of the House of Representatives requiring a cost estimate prepared by the Congressional Budget Office, the following report prepared by the CBO is provided.

U.S. Congress,
Congressional Budget Office,
Washington, DC, May 3, 1985.

Hon. Dan Rostenkowski,
Chairman, Committee on Ways and Means,
House of Representatives, Washington, DC.

Dear Mr. Chairman: The Congressional Budget Office has reviewed H.R. 1868, as ordered reported by the Committee on Ways and Means on May 2, 1985. This bill amends the Social Security Act to protect beneficiaries under health care programs of that act from unfit care practitioners, and to otherwise improve the anti-fraud provisions of that act. The bill also amends the controlled Substances Act and the Social Security Act to deny, revoke, or suspend the registration to manufacture, distribute or dispense a controlled substance for entities excluded from reimbursement under the Medicare program.

Based on this review, it is expected that no additional cost to the government will be incurred as a result of enactment of this legislation. Although certain health care practitioners will be excluded from participation in Medicare, Medicaid, the Maternal and Child Health program, and Title XX Social Services, it is expected that beneficiaries will continue to receive the same level of services from other providers. This legislation is not expected to affect the budgets of state and local governments.

We would be pleased to respond to any questions you may have on this estimate. Your staff may contact Jack Rodgers (226-2820) with detailed questions.

With best wishes,

Sincerely,

RUDOLPH G. PENNER.

IV. OTHER MATTERS REQUIRED TO BE DISCUSSED UNDER THE RULES OF THE HOUSE

1. VOTE OF THE COMMITTEE

In compliance with clause 2(l)(2)(B) of the Rule XI of Rules of the House of Representatives, the following statement is made: the bill H.R. 1868 was ordered favorably reported to the House of Representatives by voice vote.

2. OVERSIGHT FINDINGS

In compliance with clause 2(l)(3)(A) of Rule XI of the Rules of the House of Representatives, the Committee reports that the need for this legislation has been confirmed by the oversight findings of the Subcommittee on Health. As noted in the above Section on "Background and Need for Legislation," the General Accounting Office presented to the Subcommittee its findings based on its report of May 1, 1984, entitled "Expanded Federal Authority Needed to Protect Medicare and Medicaid Patients from Health Practitioners Who Lose Their Licenses" (GAO/HRD-84-53). In preparing the report, the GAO reviewed license revocations and suspensions in three States and followed up on the practitioners to determine whether they were still receiving medicare and medicaid reimbursement. Many of the provisions included in this legislation resulted from the recommendations made by the GAO as a result of their investigation.

In addition, the Subcommittee took testimony from the Inspector General of the Department of Health and Human Services who has responsibility for enforcing the fraud and abuse laws designed to protect medicare and medicaid patients. The IG made recommendations to the Subcommittee to expand current authority to fill many of the gaps in current law. Many of these recommendations were included in H.R. 1868.

3. OVERSIGHT BY COMMITTEE ON GOVERNMENT OPERATIONS

In compliance with clause 2(l)(3)(D) of Rule XI of the Rules of the House of Representatives, the Committee states that no oversight findings and recommendations have been submitted to the Committee by the Committee on Government Operations with respect to the subject matter contained in the bill.

4. INFLATION IMPACT

Pursuant to clause 2(l)(4) of Rule XI of the Rules of the House of Representatives, with regard to the inflationary impact of the reported bill, the Committee believes that the bill has no measurable effect on health care prices or consumer prices generally.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 or rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italics, existing law in which no change is proposed is shown in roman):

specify in regulations) of a criminal offense related to such individual's participation in the delivery of medical care or services under title XVIII, XIX, or XX, the Secretary—

[(1) shall bar from participation in the program under title XVIII each such individual otherwise eligible to participate in such program;

[(2)(A) shall promptly notify each appropriate State agency administering or supervising the administration of a State plan approved under title XIX of the fact and circumstances of such determination, and (except as provided in subparagraph (B)) require each such agency to bar such individual from participation in such plan for such period as he shall specify, which in the case of an individual specified in paragraph (1) shall be the period established pursuant to paragraph (1);

[(2)(A) shall promptly notify each appropriate State agency administering or supervising the administration of a State plan approved under title XIX of the fact and circumstances of such determination, and (except as provided in subparagraph (B)) may require each such agency to bar the person from participation in the program established by such plan for such period as he shall specify, which in the case of an individual shall be the period established pursuant to paragraph (1), and

(i) inpatient institutional services furnished to an individual who was admitted to such institution before the date of the exclusion, or

(ii) home health services and hospice care furnished to an individual under a plan of care established before the date of the exclusion, until the passage of 30 days after the effective date of the exclusion.

(2) The Secretary may terminate the exclusion if the Secretary determines, on the basis of the conduct of the applicant which occurred after the date of the notice of exclusion or which was unknown to the Secretary at the time of the exclusion, that—

* * * * * * *

Obligations of health care practitioners and providers of health care services; sanctions and penalties; hearings and review

Sec. 1156. (a) It shall be the obligation of any health care practitioner and any other person (including a hospital or other health care facility, organization, or agency) who provides health care services for which payment may be made (in whole or in part) under [title XVIII] *this Act,* to assure, to the extent of his authority that services or items ordered or provided by such practitioner or person to beneficiaries and recipients under [such title] *this Act*—

(1) will be provided economically and only when, and to the extent, medically necessary;

(2) will be of a quality which meets professionally recognized standards of health care; and

(3) will be supported by evidence of medical necessity and quality in such form and fashion and at such time as may reasonably be required by a reviewing peer review organization in the exercise of its duties and responsibilities.

(b)(1) If after reasonable notice and opportunity for discussion with the practitioner or person concerned, any organization having a contract with the Secretary under this part determines that such practitioner or person has—

(A) failed in a substantial number of cases substantially to comply with any obligation imposed on him under subsection (a), or

(B) grossly and flagrantly violated any such obligation in one or more instances,

such organization shall submit a report and recommendations to the Secretary. If the Secretary agrees with such determination, and determines that such practitioner or person, in providing health care services over which such organization has review responsibility and for which payment (in whole or in part) may be made under [title XVIII,] *this Act,* has demonstrated an unwillingness or a lack of ability substantially to comply with such obligations, the Secretary (in addition to any other sanction provided under law) may exclude (permanently or for such period as the Secretary may prescribe) such practitioner or person from eligibility to provide such services on a reimbursable basis. If the Secretary fails to act upon the recommendations submitted to him by such organization within 120 days after such submission, such practitioner or person shall be excluded from eligibility to provide services on a reimbursable basis until such time as the Secretary determines or otherwise.

(2) A determination made by the Secretary under this subsection to exclude a practitioner or person shall be effective at such time and upon such reasonable notice to the public and to the practitioner or person furnishing the services involved as may be specified in regulations. Such determination shall be effective with respect to services furnished to an individual on or after the effective date of such determination (except that in the case of institutional health care services such determination shall be effective in the manner provided in [title XVIII] *this Act* with respect to terminations of provider agreements), and shall remain in effect until the Secretary finds and gives reasonable notice to the public that the basis for such determination has been removed and that there is reasonable assurance that it will not recur.

(3) In lieu of the sanction authorized by paragraph (1), the Secretary may require that (as a condition to the continued eligibility of such practitioner or person to provide such health care services on a reimbursable basis) such practitioner or person pays to the United States, in case such acts or conduct involved the provision or ordering by such practitioner or person of health care services which were medically improper or unnecessary, an amount not in excess of the actual or estimated cost of the medically improper or unnecessary services so provided. Such amount may be deducted from any sums owing by the United States (or any instrumentality thereof) to the practitioner or person from whom such amount is claimed.

(4) Any practitioner or person furnishing services described in paragraph (1) who is dissatisfied with a determination made by the Secretary under this subsection shall be entitled to reasonable notice and opportunity for a hearing thereon by the Secretary to the same extent as is provided in section 205(b), and to judicial review of the Secretary's final decision after such hearing as is provided in section 205(g).

(c) It shall be the duty of each utilization and quality control peer review organization to use such authority or influence it may possess as a professional organization, and to enlist the support of any other professional or governmental organization having influence or authority over health care practitioners and any other person (including a hospital or other health care facility, organiation, or agency) providing health care services in the area served by such review organization, in assuring that each practitioner or person (referred to in subsection (a)) providing health care services in such area shall comply with all obligations imposed on him under subsection (a).
